## HOW DOES THIS PLAN WORK?

At the outset, you select:

- Life Coverage Variant
- Single Premium amount
- Policy Term
- Sum Assured (in case of Single Life Coverage Variant)
- Investment Fund(s) allocation

Your premium shall be invested in the fund(s) you select and in the proportion you specify.

On survival of the life/lives assured till the end of the Policy Term you will receive your Fund Value<sup>9</sup> as a lump sum.

In case of death of the life assured (Single Life Variant) or on death of both the lives assured (Joint Life Variant), the nominee shall receive the Death Benefit.

9. Including Top-up Fund Value, if any

## BENEFITS IN DETAIL

### Maturity Benefit:

- Single Life Coverage Variant: On survival until maturity the Fund Value will be paid.
- Joint life Coverage Variant: On survival until maturity of at least one of the lives assured, Fund Value will be paid.

Fund Value will be calculated by multiplying balance units in your fund(s) by the then prevailing unit price(s). Your policy matures at the end of Policy Term and all risk cover ceases.

You can take your Fund value at maturity in periodical instalments under **Systematic Withdrawal Plan**. Please refer Section E of Terms and Conditions section for more details.

### Death Benefit:

#### Insured event for both the coverage variants is as follows:

- Single Life Coverage Variant: Sum Assured on death is payable as a lump sum **on death of the life assured** during the Policy Term.
- Joint life Coverage Variant: Sum Assured on death is payable as a lump sum on the second death of the two lives assured during the Policy Term.

#### Sum Assured on death is the highest of:

- Total Sum Assured less an amount for Partial withdrawals made, if any (as detailed below), where Total Sum Assured is Basic Sum Assured plus any additional Sum Assured in respect of Top-ups
- Total Fund value where Total Fund value includes Single Premium Fund Value plus Top-up Premium Fund value
- 105% of Total premiums paid (including Top-up premiums, if any)

#### The partial withdrawals to be deducted from the Total Sum Assured shall be:

- For death<sup>10</sup> before attaining age 60: all partial withdrawals (except from the Top-up Fund Value) made during the two year period immediately preceding the date of death.
- For death on or after attaining age 60: all partial withdrawals (except from the Top-up fund value) made within two years before attaining age 60 and all the partial withdrawals made after attaining age 60

Upon payment of Death Benefit, the policy shall terminate and no further benefits shall be payable.

In addition, if Joint Life coverage variant is opted then, on first death<sup>11</sup>, the fund value will be set to be higher of 125% of Single premium or balance in the unit fund.

#### Further in case of death of one of the lives, the surviving life assured will have an option to either:

1. fully withdraw this amount and continue the policy with the coverage as per the policy provisions, OR
2. not withdraw any amount and continue the policy with the coverage as per the policy provisions

10. For Joint Life Coverage Variant, age of the second life which is surviving would be considered.

11. Not applicable on death due to suicide

The restriction of withdrawal during first 5 years shall not apply in this case since this is a contingency withdrawal.

If the surviving life opts for Option 1, then a lump sum mortality charge shall be deducted from the fund value towards future mortality cover to be provided to the surviving life.

This lump sum mortality charge shall be determined as a present value of future mortality charges discounted at the prevailing 10-yr G-Sec yield less 2%.

### **Loyalty Additions**

Loyalty additions will be allocated as extra units at the end of the 7<sup>th</sup> and 10<sup>th</sup> policy years provided the policy is in force and no Partial Withdrawals have been exercised.

Table below provides Loyalty Additions (as a % of Single Premium):

Policy Year	Loyalty Addition
7	2%
10	3%

Loyalty Additions will be allocated between the funds in the same proportion as the value of total units held in each fund at the time of allocation.

Loyalty additions once added to the fund are irreversible. The policyholder is eligible to make Partial Withdrawals in subsequent years and the already allocated loyalty additions would be a part of the fund value, which would be paid at maturity.

### **Special Joining Addition**

Special Joining Addition of 1% of Single Premium shall be added to the Fund Value of policies with a Single Premium of 15 lakhs or higher at policy inception.

### **Partial Withdrawal:**

The Policyholder has the option of making partial withdrawals subject to the following conditions:

- i) Partial withdrawals shall not be allowed within first five policy years.
- ii) The Life Assured is at least 18 years of age
- iii) The minimum Partial Withdrawal amount is Rs. 10,000
- iv) The fund value after any partial withdrawal and any applicable charges (including applicable taxes and other statutory levies, if any) is not less than the 25% of the single premium.
- v) The maximum amount of partial withdrawals that can be done throughout the policy term from the basic fund value is 50% of the single premium
- vi) Partial withdrawals shall be allowed from the fund value built up from the top-up premiums, if any, as long as such fund value supports the partial withdrawal and subsequently, the partial withdrawals shall be allowed from the fund value built up from the base premium.
- vii) Top-up premiums once paid cannot be withdrawn from the fund for a period of 5 years from the date of payment of the Top-up premium, except in case of complete surrender of the policy

## On Surrender

Once you surrender your policy, your risk cover will cease and surrender benefit will be paid out as mentioned below.

### If you surrender before completion of the 5 years from commencement of the policy

Upon surrender within the first five years of the policy, the Total Fund Value after deducting discontinuance charges will be moved to a 'Discontinued Policy Fund' which will earn a minimum guaranteed interest rate as specified by the IRDAI. Presently, such interest rate is 4% p.a. A Fund Management Charge of 0.50% p.a., charged daily, will be levied on the 'Discontinued Policy Fund'. The amount allocated to the Discontinued Policy Fund, with accrued interest, will be paid out to the policyholder, or nominee if applicable, on completion of the Lock-in Period. Upon payment of this benefit, the policy terminates and no further benefits are payable.

In case of the occurrence of an insured event before the payment of the surrender benefit, the amount in the Discontinued Policy Fund will be paid out immediately, the policy will terminate and no further benefits are payable.

Please see the "Charges" section for details of the Discontinuance Charges.

### If you surrender after completion of the 5 years from commencement of the policy

Fund Value will be paid out.

Upon payment of this benefit the policy terminates and no further benefits are payable.
