#### BENEFITS FOR YOUR MEMBERS

##### Death Benefit

The life insurance is arranged on a group basis and you will be the master policyholder. In order for a customer to be covered under the policy they must join the group insurance scheme, thus becoming a Scheme Member.

The main benefit is of following two types:

- Level: The sum assured stays at same level as at inception of the policy during the individual's membership term.
- Decreasing: The sum assured decreases as per the repayment schedule selected by you during the individual's membership term.

The repayment schedule will depend on the underlying interest rate, any moratorium period etc. At the outset, therefore, a repayment schedule will be agreed with the master policyholder. Such repayment schedule will define the benefits offered under the product. We will pay the benefits exactly as per the repayment schedule selected at inception, irrespective of the actual outstanding loan as of the date of death.

The plan can be taken on single life or joint life basis where we will cover the death, disability or illness of either of joint insured members, whichever occurs first. There has to be insurable interest between the joint lives.

Individual borrowers and investors/co-borrowers/co-investors of the institution can be covered under this plan.

On death or disability of the scheme member or upon the scheme member being diagnosed with any of the specified critical illnesses or terminal illness, a lump sum as sum assured will be payable as per the plan option chosen by the member at inception of the cover.
