* Subject to our Board Approved Underwriting Policy

^ Annualized Premium means the premium amount payable in a year excluding the taxes, rider premiums and underwriting extra premium on riders, if any.
Please note that you will not have the options of Fund Switch and Premium Redirection since your funds will be invested as per the Capital Shield Management Strategy.

There are 2 Funds available under this strategy:
(i) Capital Growth Fund – An equity oriented fund to provide medium to long term capital appreciation with a high level of risk
(ii) Capital Secure Fund – A debt oriented fund to provide capital preservation and safety with a low level of risk

As a part of this strategy, your premium (net of premium allocation charges) will be utilised to purchase units of the Capital Growth Fund and the Capital Secure Fund. The percentage allocation in Capital Growth Fund and Capital Secure Fund will be as per your age at policy inception and the Sum Assured** that you have opted for. Your fund value will also be rebalanced to achieve the proportions set out below. The allocation in Capital Growth Fund will keep decreasing in subsequent policy years to decrease the exposure to equity, thus helping you keep your capital protected.

* * If your Age at Entry is between 45 to 54 years and you have chosen a Limited premium payment option
**ILLUSTRATIVE EXAMPLES**

**Example 1:** Akash, a 35 year old businessman wants to invest in a HDFC Life Capital Shield policy with a premium payment term of 5 years and a policy term of 10 years. He decides to pay a premium of Rs 1,00,000 and given his age, his Sum Assured is calculated as Rs 10,00,000. The premium paid by Akash will be invested according to the Capital Shield Management Strategy as described above in detail. In case Akash pays all his due premiums and survives till the end of the 10th policy year, he will receive the following benefits:

<table>
<thead>
<tr>
<th>Assured Maturity Benefit (101% of Total Premiums paid)</th>
<th>Rs 5,05,000</th>

<tbody>
<tr>
<td>Fund Value at an assumed rate of return of 4%*</td>
<td>Rs 4,97,121</td>
</tr>
<tr>
<td>Fund Value at an Assumed rate of return of 8%*</td>
<td>Rs 6,86,745</td>
</tr>
</tbody>
</table>

At the end of the 10th policy year, Akash will receive his Fund Value (refer to the table), which shall be a minimum if 101% of the total premiums (Assured Maturity Benefit) that he has paid.

Akash will pay premiums of Rs 1 lakh for 5 years.

Akash is covered under the policy with a minimum life cover of Rs 10 lakhs for the Policy Term of 10 years.

*These assumed rates of returns are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of the policy is dependent on a number of factors including future investment performance.

Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your insurer carrying on life insurance business. If your policy offers guaranteed benefits then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable benefits then the illustrations on this page will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance.

The Maturity Benefit at 4% & 8% is not guaranteed and is subject to minimum of Assured Maturity benefit of Rs 5,05,000. In case Akash’s unfortunate demise during the Policy Term, his nominee will receive a minimum death benefit equal to a lump sum payment of Rs 10,00,000 and the policy will terminate.

**Example 2:** Prakash, a 40 year old software engineer wants to invest in a HDFC Life Capital Shield policy with a Single premium payment and a policy term of 10 years. He decides to pay a Single Premium of Rs 10,00,000 and given his age, his Sum Assured is calculated as Rs 12,50,000. The premium paid by Prakash will be invested according to the Capital Shield Management Strategy as described above in detail. In case Prakash survives till the end of the 10th policy year, he will receive the following benefits:

<table>
<thead>
<tr>
<th>Assured Maturity Benefit (101% of Total Premiums paid)</th>
<th>Rs 10,10,000</th>

<tbody>
<tr>

<td>Rs 11,02,973</td>
</tr>
<tr>
<td>Fund Value at an Assumed rate of return of 8%*</td>
<td>Rs 16,38,269</td>
</tr>
</tbody>
</table>

At the end of the 10th policy year, Prakash will receive his Fund Value (refer to the table), which small be a minimum if 101% of the total premiums (Assured Maturity Benefit) that he has paid.

Prakash will pay a Single Premium of Rs 10 lakh.

Prakash is covered under the policy with a minimum life cover of Rs 12.5 lakhs for a period of 10 years.

*These assumed rates of returns are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of the policy is dependent on a number of factors including future investment performance.

B. Unit Prices:
We will set the Unit Price of a fund as per the IRDAI’s guidelines. The unit price of Unit Linked Funds shall be computed as: Market Value of Investments held by the fund plus the value of any current assets less the value of current liabilities and provisions, if any. Dividing by the number of units existing at the valuation date before any units are allocated/redeemed, gives the unit price of the fund under consideration. We round the resulting price to the nearest Re. 0.0001. This price will be daily published on our website and the Life Insurance Council Website. Units shall only be allocated on the day the proposal is accepted and results into a policy by adjustment of application money towards premium. The premium will be adjusted on the due date even if it has been received in advance and the status of the premium received in advance shall be communicated to the policyholder.

C. Suicide Exclusion:
In case of death due to suicide within 12 months from the date of commencement of the policy or from the date of revival of the policy, as applicable, the nominee or the beneficiary of the policyholder shall be entitled to the fund value, as available on the date of intimation of death. Further any charges other than Fund Management Charges (FMC) and guarantee charges recovered subsequent to the date of death shall be added back to the fund value as available on the date of intimation of death.

D. Tax Benefits:
Tax Benefits may be available as per prevailing tax laws. You are requested to consult your tax advisor.
